FURNACE FABRICATIONS LTD

## FABRICATIONS

Furnace Fabrications Ltd offers a wealth of experience in high temperature nickel chrome fabrications for the heat treatment industry. The company works in close co-operation with Vacuum & Atmosphere Services Ltd's team of expert furnace engineers. This breadth and depth of experience ensures the most innovative and cost effective solution on every project.

Predominantly specialising in fabricating and welding Nickel/Chrome alloys, the team are fully conversant with TiG, MiG and Arc welding processes.

The company has in house facilities for the design and manufacture of all alloy fabrications, from small work trays and grids to complete furnace casings. Using their furnace experience and metallurgical knowledge, the staff excels at solution providing to improve current component design. Significant improvements in component life can often be achieved by changing material and addressing any design weakness.

Based in a 10,000sq. foot factory in West Bromwich, a comprehensive set of cutting, forming and welding equipment permits the manufacture of any size or complexity of fabrication.

Furnace Fabrications Ltd also offers on-site welding services for breakdowns, working closely with Vacuum & Atmosphere Service Ltd we aim to reduce total furnace downtime.
