

Vacuum & Atmosphere Services Ltd, operate a Quality Management System to the following standard ISO 9001 and are Gas Safe Registered.

Our team of UK based, gas safe registered, service engineers are fully trained both electrically and mechanically to nationally recognised standards to enable them to install, commission and service heat treatment furnaces and associated equipment, whilst complying with all the latest health & safety regulations.

We are able to supply full risk assessments and method statements where required, along with the necessary supporting documentation, including working in confined spaces and working at heights.
